PROFESSIONAL SUMMARY

Product Designer with 5 years of experience taking products from zero to one. Specialize in designing systems, not just screens but also translating ambiguous ideas into intuitive experiences that solve real user problems. Proven track record leading cross-functional product builds at founding-team startups through established corporations, with expertise in CRM systems, point-of-sales platforms, fintech products, and talent acquisition platforms.

PROFESSIONAL EXPERIENCE

PRODUCT DESIGNER / MANAGER – POINT OF SALES & CUSTOMER RELATIONSHIP MANAGEMENT SYSTEM

PT. Cakra Radha Mustika (Kalbe Group), Jakarta, Indonesia | Mar 2023 - Present (3+ years)

- Designed end-to-end UX for POS system deployed across 10+ Kalbe partner stores, serving 1,000+ loyal customers with seamless transaction flows
- Created loyalty event experience that drove 1,000+ new user sign-ups through intuitive in-store POS interactions
- Designed data-connected user flows bridging POS and CRM systems, enabling personalized customer engagement for 300,000+ customer profiles enriched with real-time transaction history
- Redesigned product and inventory management interface, reducing manual input errors by 40% through intuitive form design, validation patterns, and streamlined stock-tracking workflows
- Developed and integrated omnichannel CRM system connecting social media and call center channels, consolidating 98 social media channels across 8 Kalbe brands into unified single sign-on platform
- Reduced average agent response time by 50% through optimized workflow design and interface improvements, enabling faster lead follow-ups and enhanced customer satisfaction
- Streamlined internal operations by designing Portal Management System consolidating 5 legacy applications into single unified platform with single sign-on, improving user efficiency and reducing login friction

JUNIOR PRODUCT MANAGER - LOYALTY & AUTOMATION

Lakuemas Indonesia (Fintech), Indonesia | Aug 2022 - Mar 2023 (8 months)

- Ideated and launched subscription program for digital gold platform generating IDR 300 million in revenue within first month
- Automated KYC verification process for customer onboarding, reducing friction and improving verification speed

PRODUCT DESIGNER - TALENT ACQUISITION

Lemondial Career, Indonesia | Jun 2021 - Jul 2022 (1 year 2 months)

- Served as founding team member, directly influencing product vision, design direction, and UX strategy with ownership over core product decisions
- Owned full design lifecycle from ideation and concept sketching through post-launch iteration, ensuring design consistency across all product stages
- Championed Agile design process and MVP-first approach, defining design sprints and rapid prototyping cycles that kept team aligned and reduced time-to-validate
- Designed end-to-end job seeker experience from onboarding through job discovery to application UX, contributing to 1,200 successful job placements within 3 months of launch
- Architected UX foundation for job portal and online class mobile apps, defining information architecture, user flows, and interface patterns that scaled with platform growth

PRODUCT DESIGNER - MEAL TRACKING APP

Prove Fit Indonesia (EdTech), Jakarta, Indonesia | Feb 2020 - May 2021 (1 year 4 months)

- Designed "Did You Eat?" mobile reminder app reframing meal tracking around self-reflection rather than calorie counting, challenging conventional diet-app model
- Reframed core problem statement from "how much did you eat?" to "how did eating make you feel?", transforming UX from data-input tool to personal reflection companion
- Eliminated calorie, fat, and macro tracking to reduce anxiety and perfectionism, replacing with mood-based prompts and contextual nudges encouraging consistency over precision
- Launched mobile app achieving average monthly class registration of 450 within 5 months of launch

EDUCATION

Bachelor of Economy

Universitas Bhayangkara, Bekasi, Indonesia | Graduated: 2021
